Ayubaba Verification Record			Verified Pass
DESIGNATION	ASSESSMENT DATE	CATEGORY	STORAGE
Verified Pass	2026-07-25	Phones	256GB
COLOUR			
Space Grey			
Battery Health			Pass
Health percentage and cycle count from diagnostic software			
Engineer note: Health percentage: 87%. Cycle count: 342. Battery replaced previously: No			
Charging Circuit			Pass
Voltage and current measured with USB power meter			
Engineer note: Voltage: 5.1V. Current: 2.4A. Charging mode: Fast			
Display			Pass
Dead pixels, touch response, screen condition			
Engineer note: No dead pixels found. Touch response: Full. No screen burn-in. No physical screen damage.			
Audio			Pass
Speaker and microphone functionality where applicable			
Engineer note: Speaker and microphone both tested, clear output, no distortion or dropouts.			
Wi-Fi			Pass
Connection on 2.4GHz and 5GHz bands			
Engineer note: Connected on both 2.4GHz and 5GHz. Stable throughout testing.			

Provenance IMEI or serial verified against stolen device register. NSYS Diagnostics certificate for phones. <i>Engineer note: IMEI checked against stolen/lost register via NSYS Diagnostics. Clean result, no activation lock</i>		Pass
Data Wipe Factory reset confirmed. No account locks. No prior user data. <i>Engineer note: Factory reset confirmed. No residual data, accounts, or activation lock found.</i>		Pass
Physical Safety Casing, ports, buttons, liquid damage indicators, thermal behaviour <i>Engineer note: Casing, ports, and buttons inspected. No cracks or damage. No liquid indicator triggered</i>		Pass
Cellular SIM Test Confirms SIM detection, network registration, and cellular call or data functionality where applicable. <i>Engineer note: SIM detected on insertion. Registered to network within 4 seconds. Test call and data session both completed successfully.</i>		Pass
Front camera Checks image capture, focus, exposure, and visible defects on the front-facing camera. <i>Engineer note: Image capture, focus, and exposure normal. No visible defects.</i>		Pass
Rear camera Checks image capture, focus, exposure, flash behaviour, and visible defects on the rear camera. <i>Engineer note: Both lenses tested, focus and exposure normal. No visible defects.</i>		Pass
Bluetooth Confirms pairing, connection stability, and basic audio or device communication. <i>Engineer note: Paired successfully. Audio streamed without drops</i>		Pass
EVS ID		AYU-EVS-PHO-4470

EVS Assessment Scores	
TECHNICAL CONFIDENCE 90/100 — Excellent	PRODUCT RISK 0/100 — Low
WHY THESE SCORES? - Measured evidence recorded on 0 of 12 completed checks - All mandatory checks completed and passed	

Record Authenticity

Version 1 · Immutable record — re-assessments issue a new version; previous versions remain permanently preserved.

About this record. This document is issued by Ayubaba Technologies under the Engineering Verification System (EVS). Each assessment is carried out by a qualified engineer against standardised criteria. This record corresponds to the unit identified by the EVS ID above and is valid as of the assessment date shown. Reproduction without the original EVS ID is not a valid verification record.
